this book analyzes the concept of hikmah in early islamic texts within a network of multiple conceptual interrelationships in the cross disciplinary context of muslim works roughly up to al ghazali s lifetime the word hikmah has a wide spectrum of connotations in these texts because it basically contains all knowledge within human reach and accordingly received a range of diverse scholarly treatments this work contextualizes hikmah in a nuanced fashion in the collective usage of early muslim authors mainly by lexicographers exegetes philosophers and sufis for the first time in the field of arabic and islamic studies particularly in islamic philosophy and sufism this study explores the concept of hikmah in an all embracing capacity hikmah is a central concept of islamic thinking related to almost all intellectual disciplines of muslim scholarly tradition but it has been insufficiently underlined and treated in earlier western scholarship

this work is the first detailed study of what the qur an means by wisdom it argues that the qur an when it uses the term is engaging with biblical wisdom discourse as it had been interpreted and understood in late antiquity biblical wisdom texts are a category of books in the hebrew bible and apocrypha such as proverbs and sirach that emphasize the importance of acquiring wisdom through contemplating the natural world and one s own life experience the presence of this wisdom genre in the bible encouraged hellenistic jews and early christians to embrace the greek philosophical notion of natural law the idea that what is morally right and wrong is known innately and confirmed through divine revelation over subsequent centuries church fathers and rabbis continued to debate what the relationship between divine revelation and natural law wisdom ought to be while the church fathers argued that much of the legal content of the hebrew bible should no longer be followed now that jesus had restored natural law to its rightful position as arbiter of right and wrong the rabbis insisted that god is at liberty to impose through scripture whatever laws he wishes onto humanity this book asserts that when the qur an invokes wisdom it engages in that debate and ultimately presents a relationship

between scripture and natural law that is close to the christian conception insisting that law must be interpreted within an ethical framework that is innate to human morality

this book investigates the transmission of knowledge in the arab and islamic world with particular attention to the translation of material from greek persian and sanskrit into arabic and then from arabic into latin in medieval western europe while most modern scholarly works have addressed contributions of muslim scholars to the modern development of translation labeeb ahmed bsoul bases his study on arabic classical literature and its impact upon modern translation he focuses on the contributions made by prominent classical christian and muslim scholars showcasing how their works and contributions to the field of knowledge are still relevant today

ibn al arabī d 1240 was one of the towering figures of islamic intellectual history and among sufis still bears the title of al shaykh al akbar or the greatest master ibn al arabī and islamic intellectual culture traces the history of the concept of oneness of being wahdat al wujud in the school of ibn al arabī in order to explore the relationship between mysticism and philosophy in islamic intellectual life it examines how the conceptual language used by early mystical writers became increasingly engaged over time with the broader islamic intellectual culture eventually becoming integrated with the latter s common philosophical and theological vocabulary it focuses on four successive generations of thinkers sadr al dīn al qūnawī mu ayyad al dīn al jandī abd al razzāq al kāshānī and dāwūd al qaysarī and examines how these philosopher mystics refined and developed the ideas of ibn al arabī through a close analysis of texts the book clearly traces the crystallization of an influential school of thought in islamic history and its place in the broader intellectual culture offering an exploration of the development of sufi expression and thought this book will be a valuable resource for students and scholars of islamic thought philosophy and mysticism

muslims have been provided by allah a complete code of conduct in the form of holy quran in quran there are two types of verses i e allegorical mutashabih and categorical mukhammat the mutashabih verses of quran are mostly pertaining to the essence of allah and his attributes predestination soul and life here after death etc etc since these verses are outside the purview of human reasoning much hair splitting and question begging has not been encouraged in this regard yet many of the muslim thinkers and philosophers have ventured
